How to Find Device Information and Electronic Labels on Your Reebok Stride

Inas B. - 2026-11-04 - Software & Firmware

You can view your Reebok Stride's device information and electronic regulatory labels directly on the watch.

View Device Information

1. Press the **top button** to open the App List.
2. Tap **Settings**.
3. Select **About**.

The About screen displays information such as:

- Device Name
- Firmware Version
- MAC Address

View the Electronic Label

The **About** section also contains the electronic label with required regulatory and radio-frequency compliance information for the device.
