## How to Set a PIN on Your Reebok Stride

Inas B. - 2026-09-18 - [Setup & Pairing](#)

You can set a 6-digit PIN to help protect your watch.

### Set Up a PIN

1. Open **Settings** on your watch.
2. Open the password or security settings.
3. Enable the **6-digit PIN**.
4. Follow the on-screen instructions to create your PIN.

When enabled, the watch will automatically lock when it is removed from your wrist.

**Important:** If you forget your password, entering an incorrect password **5 times** will trigger a factory reset. A factory reset will erase your data from the watch.
