Make and Receive Calls: Stay Connected

Inas B. - 2025-08-20 - [Product Features](#)

Because connection doesn't stop when your hands are full. With the Reebok Pulse, you can make and receive phone calls straight from your wrist, fast, easy, and hands-free.

Bluetooth Calling

- The Reebok Pulse connects to your smartphone via Bluetooth to handle calls.
- Make and receive cellular calls using the watch's built-in dialer.
- The watch does not support internet calls (e.g., WhatsApp, Zoom, or other third-party calling apps).
- All calls route through your paired phone; your watch acts as a Bluetooth device, not a standalone phone.

Sync Your Contacts

- Use the app to sync selected contacts to your watch for quick access.
- Open the app
- Navigate to your device settings
- Choose which contacts you'd like available on your watch

Adjust Volume

Control the volume of your calls directly on the watch for a smoother call experience, no need to reach for your phone.
