Handling Device Overheating on Your Reebok Rush

Inas B. - 2026-10-22 - [Dépannage & Performance](#)

If your Reebok Rush becomes extremely hot:

- Immediately remove the watch from your wrist.
- Turn off the watch.
- Do not continue using or charging the watch while it is extremely hot.
- Contact the manufacturer's after-sales service for assistance.

Warning: Do not continue wearing or handling an overheated device, as excessive heat may cause burns or indicate a battery safety issue.
