Medical Precautions and Battery Safety for Your Reebok Rush

Inas B. - 2026-10-22 - [Chargement & Batterie](#)

Follow these precautions when using and charging your Reebok Rush.

Medical Devices

If you use a pacemaker or defibrillator, keep the Reebok Rush **more than 20 cm (8 inches) away** from the device when the watch is turned on.

If you have questions about using a smartwatch with an implanted medical device, consult your healthcare professional.

Battery Safety

The battery is not designed to be replaced by the user.

Do not expose the watch or battery to:

- Direct sunlight
- Open flames
- Excessive heat
- Microwave ovens
- Conventional ovens

Do not attempt to open or modify the battery.

Charging Safety

Keep the watch, charging cable, and charger in a dry environment while charging.

Never charge the watch when the device or charging contacts are wet.
